1                                    AMENDMENT TO SENATE JOINT RESOLUTION 30

2            AMENDMENT NO. \_\_\_\_\_. Amend Senate Joint Resolution 30 by  
3 replacing everything after the heading with the following:

4            "WHEREAS, The United States Supreme Court in *Olmstead v.*  
5 *L.C. Ex Rel. Zimring*, 119 S. Ct. 2176 (1999), held that the  
6 unjustifiable institutionalization of a person with a  
7 disability who could live in the community with appropriate  
8 supports and services, and wishes to do so, is unlawful  
9 discrimination in violation of the Americans with Disabilities  
10 Act (ADA); and

11            WHEREAS, Many individuals with developmental disabilities  
12 in Illinois who desire home or community-based residential  
13 services are unable to obtain them due to the lack of funding  
14 for such options; and

15            WHEREAS, As a result of insufficient home and

1 community-based service options for individuals with  
2 developmental disabilities in Illinois, many individuals and  
3 their families must choose between living with their parents or  
4 other family members without the supports and services they  
5 need, or living in an Intermediate Care Facility, or an  
6 Intermediate Care Facility/DD 15 and under, or a State-operated  
7 developmental center, even if they could live successfully in a  
8 less restrictive setting with appropriate supports and  
9 services; and

10 WHEREAS, There are now over 16,000 individuals with  
11 developmental disabilities in Illinois with documented crisis,  
12 emerging crisis, or future service needs who are on the  
13 Department of Human Services' Priority of Urgency of Need of  
14 Services (PUNS) waiting list database for services and  
15 supports, and the need is probably greater because this number  
16 only represents those individuals who have actually signed up  
17 for the PUNS waiting list database; and

18 WHEREAS, Almost 10 years after the Olmstead decision, a  
19 report titled "The State of the States in Disabilities 2008" by  
20 the Department of Psychiatry and Coleman Institute for  
21 Cognitive Disabilities of the University of Colorado ranks the  
22 State of Illinois 40th nationally in fiscal effort for services  
23 for individuals with developmental disabilities, including all  
24 programs - home based, group home, and congregate care; 47th in

1 community spending; and 51st in serving people with  
2 developmental disabilities in environments of 6 or less; and

3 WHEREAS, Other studies, including but not limited to,  
4 "State Funding of Community Agencies for Services to Illinois  
5 Residents with Mental Illness and/or Developmental  
6 Disabilities: Final Report to the Illinois General Assembly",  
7 "The Report of the Community Integrated Living Arrangement  
8 Nursing Services Work Group", and "The Illinois Direct Support  
9 Professional Workforce Initiative" address the issues with the  
10 Illinois system; and

11 WHEREAS, "The Blueprint for System Redesign in Illinois"  
12 reviewed the findings of these studies as well as the results  
13 of a gaps analysis and created a framework for restructuring  
14 the current service system for people with developmental  
15 disabilities and their families; and

16 WHEREAS, These studies and numerous legislative measures  
17 and lawsuits over the last decade have attempted to address the  
18 shortcomings of Illinois' fragmented and inadequate system of  
19 services and supports to individuals with developmental  
20 disabilities; and

21 WHEREAS, In order to meet the urgent need for quality home  
22 and community-based services in Illinois, major systemic

1 fiscal and policy changes are necessary and must be a real  
2 priority for the State; and

3 WHEREAS, The workers who provide direct support in the  
4 community to individuals with developmental disabilities  
5 should be paid fair and adequate wages; and

6 WHEREAS, Until the State breaks the cycle of underfunding  
7 and lack of significant growth of home and community-based  
8 services and supports for people with developmental  
9 disabilities and their families which perpetuates short term  
10 measures to address crises in the system and which, in the long  
11 term, has maintained and fostered the competition among many  
12 for scarce public resources; the community-based system will  
13 continue to be fragmented and inadequately funded; therefore,  
14 be it
